# SurgyPad™

A UNIQUE & REVOLUTIONARY  
PATIENT POSITIONING SYSTEM

## DESIGNED FOR:

- Laparoscopic & Robotic Procedures
- Gynecology, Urology, Colorectal, General, Thoracic & Cardiac Procedures
- Trendelenburg, Reverse Trendelenburg, and Lateral Tilt positioning

## FEATURES & BENEFITS

### SECURE

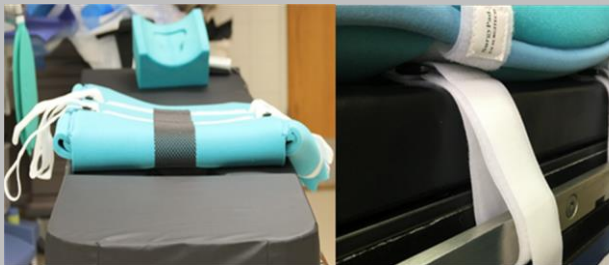

- ❖ Built-in arm protectors with Velcro straps secures patient's arms to their body
- ❖ Anti-skid strip on the back of the SurgyPad adds traction between SurgyPad and mattress
- ❖ Innovative 6-strap system further secures SurgyPad to table
- ❖ Adjustable body strap

### SAFE

- ❖ Single-use lowers cross-contamination risk
- ❖ High density, latex free & water wicking foam
- ❖ Eliminates risk of brachial plexus injury

### COST & TIME EFFECTIVE

- ❖ Setup time < 60 seconds
- ❖ Standardized removal procedure
- ❖ Reduces "never-events"
- ❖ Saves facilities up to 20-30%

Anti-skid strip

Velcro 6-strap system
